Problem 1

Calculate the Profit for each employee using LET.

Profit = Sales – Cost

Problem 2

Using LET, calculate the Profit Margin (%).

Profit Margin = (Sales – Cost) / Sales

Problem 3

Using LET, calculate the Achievement Percentage.

Achievement % = Sales / Target

Problem 4

Using LET, calculate the Net Earnings.

Net Earnings = Sales – Cost + Bonus

Problem 5

Using LET, calculate the Average Sales Per Working Day.

Sales / Working Days
