

Delivery SLA	Helper Column	Weekend Analysis	Calender Days	Working Days	Difference	Month End	Half
Slight Delay	Jan-2025	321500	5	4	1	31-Jan-25	First Half
Slight Delay	Jan-2025		7	5	2	31-Jan-25	First Half
Slight Delay	Jan-2025		6	4	2	31-Jan-25	Second Half
On Time	Feb-2025		4	3	1	28-Feb-25	First Half
Slight Delay	Feb-2025		9	6	3	28-Feb-25	First Half
On Time	Mar-2025		4	2	2	31-Mar-25	First Half
Slight Delay	Mar-2025		8	6	2	31-Mar-25	Second Half
Slight Delay	Mar-2025		8	6	2	31-Mar-25	Second Half
On Time	Apr-2025		3	3	0	30-Apr-25	First Half
Slight Delay	Apr-2025		8	5	3	30-Apr-25	Second Half

Classify deliveries:

≤3 days → On Time

4–6 days → Slight Delay

6 days → Late

Create a helper column using date functions that groups sales by:

Challenge 2 — Monthly Sales Jan-2025

Report Feb-2025

Mar-2025

**Challenge 3 — Weekend
Analysis**

Find all orders placed on weekends and calculate their total sales.

**Challenge 4 — Business Days
vs Calendar Days** Calculate: Calendar Days & Working Days
Then compare the difference for each order.

**Challenge 5 — Monthly
Closing Report** Create a column that shows the last day of the order month and determine whether the order
was placed in the first half or second half of the month.
