

**Problem 1 — Column Chart: Compare Product Sales**

**Business Requirement**

*Management wants to compare the total annual sales generated by each product.*

**Task**

**Create a Column Chart showing:**

- Laptop**
- Mobile**
- Tablet**
- Accessories**

*against their total Sales (₹).*

**Your Steps**

- Summarize Sales by Product.**
- Select the summarized data.**
- Insert a Column Chart.**
- Give the chart a meaningful title.**
- Add appropriate data labels.**
- Format the Sales axis as currency/₹.**

| Product     | Sum of Sales (₹) |
|-------------|------------------|
| Accessories | 573000           |
| Laptop      | 2176000          |
| Mobile      | 1572000          |
| Tablet      | 1041000          |
